Some of the Aims of this course are;

- Ensure the JAC, Age Managers, Management teams and Interested Parents have a full understanding of their role and outcomes in Junior Activities.
- Ensure JAC's, Age Managers, Management teams and Interested Parents have an understanding of their duties and their responsibilities
- Provide the JAC, Age Managers, Management teams and Interested Parents with a thorough understanding of the SLSA Junior Activities Education program and its requirements.

This also covers the Development of the following areas:

Building Teams - Skills - Culture - Sponsors - Effective and Fun Programs - Communication: Engagement - Compliance - Safety - Resolving Conflict - Decision Making - Sustainability and Succession Planning

Responses to this Course from Branches/Clubs across other SLSNSW Clubs:

“Assist in succession planning; promotion of club services and enables us to conduct a safe, fun, educational experience for all our members”

“Ways to engage parents new and old and to get them to want to help out; giving younger members the opportunity to do lifesaving skills”

“This is a vital resource that should be made available to all clubs”

“Having run a small club Nipper program for many years I came to the course expecting it to be either uninspiring or overly dictatorial on how nippers should be done. In reality it provided a blueprint on how to improve your club and take it to the next level for professionalism and contribution to the members and community as a whole”
